(Glenn Hauser, Enid, WOR)

** OKLAHOMA [and non]. 5140 USB, Wed May 20 at 1400-1405, continuous monitoring gets zero signals from regular net vs HNL of S9, nor quick chex of alt. 7477. But recheck at 1414, now hear call to Tulsa EOC WNCH624; 1415 ``not very good turnout``; any late checkins? NCS himself is JBA, but it`s WPFY721 in Seminole. Then calls the two Missouri stations; WNBE830 Jefferson City, Corey replies to Ernie; no answer from WPES740 Camden County. which is between Jeff City and Springfield. Closing net at 0917 LT = 1417 UT, as Oklahoma Operations Secure HF Test Net (Glenn Hauser, Enid, WOR)

** OKLAHOMA. 95.5, May 15 at 1930 UT, ``Tulsa`s New Country Leader,

K95 point 5``, i.e. KWEN, in WTFDA  merely as `K-95 FM` without the point 5 but with the FM not heard with this non-ID. Nor is the hyphen pronounced, so why show it? Slightly up with storm clouds. Of course the call originally denoted ``Queen`` to go with ``King`` KKNG OKC (Glenn Hauser, Enid, WOR)

** OKLAHOMA. OETA Continues Serving Oklahoma Following SB 1461 Veto
by Jennifer Mullins • Published on May 7, 2026

{see original for additional non-text info}

Understanding HB 3320 and SB 1461

Recent legislative activity involving HB 3320 and SB 1461 has raised questions about how the measures relate to Oklahoma Educational Television Authority and its future authorization structure.

Both bills were vetoed by Governor Kevin Stitt. This week, the Oklahoma House of Representatives voted 92-0 to override the Governor’s veto of HB 3320. The measure now moves to the Oklahoma Senate for consideration.

What is HB 3320?

HB 3320, authored by Rep. Mike Osburn, addresses Oklahoma’s broader sunset review framework for numerous smaller state boards, commissions and agencies.

The legislation would eliminate sunset provisions for those entities, including OETA.

Under Oklahoma’s current sunset process, agencies periodically undergo legislative review and reauthorization in order to continue operating.

HB 3320 would remove OETA from that recurring sunset cycle.

What is SB 1461?

SB 1461 specifically relates to OETA.

Rather than removing the sunset process entirely, the bill would extend OETA’s current sunset date from July 1, 2026, to July 1, 2036.

In practical terms:

HB 3320 would remove OETA from the recurring sunset review cycle
SB 1461 would extend OETA’s sunset date by ten years

Recent Legislative Action

Governor Kevin Stitt vetoed both HB 3320 and SB 1461.

The Oklahoma House of Representatives later voted 92-0 to override the veto of HB 3320. The measure now heads to the Oklahoma Senate for consideration.

SB 1461 also remains pending before the Senate after being vetoed.

“OETA appreciates the thoughtful consideration and bipartisan support shown throughout this process by members of the Oklahoma Legislature,” said Shawn Black, Executive Director of OETA. “For nearly 70 years, OETA has been a tremendous public-private partnership that serves all of Oklahoma.”

OETA’s Statewide Role

As Oklahoma’s largest classroom and the state’s distance learning agency, OETA provides more than 35,000 hours of non-commercial programming annually, along with:

Free standards-aligned educational resources
Professional development opportunities
Literacy and STEM initiatives
Lifelong learning opportunities for Oklahoma families and educators

OETA’s statewide network reaches 100% of Oklahomans through 18 transmitters, while more than 650,000 viewers tune in weekly across broadcast and streaming platforms.

Public Safety and Infrastructure

OETA also serves as a critical public safety partner through WARN, the Warning, Alert, Response Network, which helps ensure severe weather warnings, AMBER alerts and other emergency messages continue reaching Oklahomans across all 77 counties, even during network disruptions.

The State of Oklahoma recently invested approximately $3 million in critical infrastructure upgrades to OETA’s broadcast network, helping modernize and strengthen the system of four towers and 14 translators that deliver service across the state. Those upgrades are expected to sustain the network’s broadcast capabilities for the next 20 years and beyond.

Continuing the Legislative Process

Friends of OETA is coordinating advocacy efforts alongside legislative advocates and community supporters to help communicate the importance of OETA’s continued service to Oklahoma.

OETA will continue following legislative developments and working cooperatively with state leaders as the process moves forward (via Glenn Hauser, Enid, WORLD OF RADIO 2347)

Override of OETA veto fails
Nuria Martinez-Keel | Oklahoma Voice 21 hrs ago

Senate

A vote in the Oklahoma Senate, pictured May 29 {sic}, failed to reach the necessary 32 votes to override a governor's veto of the state's public TV broadcaster.
Janelle Stecklein | Oklahoma Voice

OKLAHOMA CITY — An attempt to override the governor’s veto of the Oklahoma Educational Television Authority has failed, putting the state’s public broadcaster on track to close.

The state Senate fell short of the necessary 32 votes for a veto override on Thursday, May 14, 2026, the final day of the 2026 legislative session, with 18 Republicans voting against it. Without it first passing the Senate, the House didn’t have the opportunity to vote on the override.

Senate Bill 1461 would have extended OETA's existence as a state-funded entity for another five years. Gov. Kevin Stitt vetoed the bill on May 5 over objections to the public having to fund TV broadcasting. He said advertisers and viewers should support OETA, not taxpayers.

Failing to extend the station's expiration date means OETA will have to begin the process of closing on July 1. It will have a year to wind down its operations.

Stitt also vetoed House Bill 3320, which would have permanently encoded the public broadcasting station in state law with no expiration date. Although the House unanimously overrode the veto, the Senate adjourned without considering it.

House Speaker Kyle Hilbert, R-Bristow, said lawmakers could have another opportunity next year to extend the broadcaster before its final closure.

"That'll be conversations that I am certain are going to be held with whomever the next governor is of where their priorities are because legislation could be considered next year," Hilbert said. "That's going to be part of the conversation, I'm sure, on the campaign trail as candidates are seeking that office."

Stitt will be term-limited this year after eight years in office. The state Legislature has twice overridden him on OETA-related vetoes in previous years.

SB 1461's author, Sen. Micheal Bergstrom, R-Adair, said OETA's broadcast towers provide critical infrastructure for severe weather warnings, Amber Alerts and Silver Alerts.

"We need to remember (if) the cellular networks (or) broadband goes down, old fashioned broadcasting is still going to be able to reach Oklahoma citizens in all 77 counties," Bergstrom said on the Senate floor before the failed vote.

OETA, the state's affiliate of the Public Broadcasting Service, is the eighth-most-watched public TV station in the country, it reported. More than 650,000 viewers watch the station each week.

OETA cannot operate long term without legislative authorization because its Federal Communications Commission broadcast licenses are held through the state, the station wrote in a statement.

At this time, it is continuing normal operations and services.

"We remain focused on understanding the path forward and working closely with state leaders, legal counsel and stakeholders as more information becomes available," its statement reads. "We are deeply grateful to the viewers, educators, families, community partners, lawmakers, donors and supporters across Oklahoma who have reached out with encouragement and support. For more than 70 years, OETA has served the state through educational programming, public safety communications, local storytelling and lifelong learning, and we are thankful for the trust Oklahomans have placed in us throughout that time."

** OKLAHOMA. Richison Family Foundation Invests $500,000 in Oklahoma Public Media

OKLAHOMA CITY (May 7, 2026) – The Oklahoma Educational Television Authority (OETA) today announced a $500,000 program-underwriting grant from the Richison Family Foundation, established by Paycom founder and CEO Chad Richison. The investment will help sustain OETA’s essential public media services for Oklahomans, including PBS KIDS early learning programming, the award-winning Oklahoma News Report and the statewide Wireless Emergency Alert system...

(via Glenn Hauser, Enid, WOR)

** OKLAHOMA. Dear Friends and Supporters of OETA,

I am writing to you today to share an important update regarding OETA’s legislative standing and our path forward. Following the recent conclusion of the legislative session, I know there are questions regarding the Governor’s veto of the legislation intended to extend OETA’s sunset authorization.

While the Senate's recent vote did not clear the path for an immediate extension, I want to be very clear about what this means, and what it doesn’t mean, for the future of public television in Oklahoma.

Where We Stand Today

First and foremost: OETA remains on the air and fully operational. Our educational programming, local journalism, and essential emergency alert services continue without interruption.

Under current state law, OETA has through June 30, 2027, to manage its operations. This window provides us with the necessary time to work with state leaders to ensure the stories of Oklahoma continue to be told. The reality is serious. Without further legislative action or a transfer of licensing, our long-term operations are at risk. But this is far from the end of the conversation.

The Path Forward

OETA’s leadership is committed to utilizing every resource to protect our state's educational and emergency infrastructure. Our work for the February 2027 legislative session is already underway. We are heartened by the growing coalition of lawmakers and community leaders who recognize OETA’s indispensable role and are working with us to ensure these services remain available to every Oklahoma family.

Why Your Support Matters Now

For over 70 years, OETA has served as Oklahoma’s largest classroom and its most trusted storyteller. That legacy was built on the belief that every Oklahoman deserves access to high-quality, non-commercial media.

The outpouring of support we have received from viewers and donors like you over the last several days has been nothing short of inspiring. It serves as a powerful reminder that OETA belongs to the people of Oklahoma. Your continued financial support and engagement are the most effective ways to demonstrate the value of this network to our state leaders. It allows us to maintain our high standards of service while we navigate these legislative challenges.

Our Commitment to You

I know that uncertainty can be unsettling. However, OETA has always been defined by its resilience and its mission. We ask you to stand

with us as we continue to:

Educate our children through award-winning PBS KIDS programming.
Inform our citizens through local news and public affairs.
Protect our communities through our statewide emergency communications infrastructure.

To help supporters stay informed, we've created a Frequently Asked Questions page outlining what happened during the legislative session, what it means for OETA, and how supporters can help advocate for Oklahoma's public television network.

View the FAQs

We will continue to communicate with you openly as we move forward. Thank you for your unwavering belief in OETA, your dedication to public media, and your continued investment in the future of Oklahoma.

With gratitude,
Shawn Black
Chief Executive Officer
Friends of OETA (FOETA)

** TURKEY. 11785.019+, Sun May 17 at 2209, VOT English not off the air, S9+30/40 into UTwente. I already got the mailbag on 1630 broadcast.

About ``Yenisehir`` in their postal address:
``From Wikipedia, the free encyclopedia: Yenişehir or Yeni Şehir (Turkish for "new city" or "new town"), also spelt as Yeni Shehr may refer to: Settlements
-- Yenişehir, the modern section of Ankara, Turkey`` and seven other places in Turkey, but obviously this one. Lacking the cedilla under the S, should be respelt Yenishehir (Glenn Hauser, OK, WOR)

** TURKEY. 11785.004-, May 18 at 2220, VOT not off the air, Turkish music S9+20/30 into UTwente (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 19 at 2158 no signal direct from VOT, but shortly cuts on with S9+10/20 direct of IS & ID, 2200 accurate timesignal, s/on for Tue 19 May originally at 1230 on 17620 plus repeats. Now some pulsing QRM covering 11785-11805 only (Glenn Hauser, OK, WOR)

** TURKEY. 11785, May 20 at 2203, 2210, no signal direct from VOT. Something`s always erroneous at Emirler. Nor accidentalternate 9875 (Glenn Hauser, OK, WOR)

** U S A. 28225 CW, May 17 at 0137, K5GJR/B, is not only the OBOB but the OSOB for 10 meters; a very specific sporadic E hop well below the FM band from per WGB roster: ``28224.5 K5GJR/B - Orange Grove TX USA EL17hr - #0 (04 Mar 2026) Note: ID + grid - A-99 vertical pwr 2.5w`` - Orange Grove is just WNW of Christ`s Corpse. Am pretty sure it was on an even, not split kHz. QRZ.com: ``K5GJR USA flag USA, Randy L Bates, 505 County Rd 231, Orange Grove, TX 78372, USA - I have a 10mtr beacon that runs 24/7 at 28.224.5, consisting of a Radio Shack HTX100, putting out 2.5 watts, using a Pico keyer kit i assembled, into a Antron A-99 vertical antenna at 40'`` - I`ve heard this before (Glenn Hauser, OK, WOR)

** U S A. 28200.5 CW, May 19 at 2201, fast beacon ID with variable tone, 20 times T. I could only copy N4### but this is the only one in

the WGB list on split frequency above the many on 28200.0 even: ``28200.5 N4WLO - Coden AL USA EM50vj - #0/3 (07 Apr 2026) Note: FT8 14" + 20 GPS synchronization pulses + de ID only every min + dashes: starts at 15nd ends at 34nd second - Pwr 100W`` - QRZ.com: ``N4WLO USA flag USA, TIMOTHY W URBAN, 4801 WINKLER CT, THEODORE, AL 36582, USA`` (Glenn Hauser, OK, WOR)

** U S A. 28206.5 CW, May 19 at 2203, VVV KM4NBB/B and other stuff with long pause. WGB list: ``28206.3 KM4NBB/B - Murrayville GA USA EM84bm - #0 (02 Mar 2026) Note: VVV + ID -  30" off - Pwr 5w`` - QRZ.com: ``KM4NBB USA flag USA, William E Stephens, 795 Emory Stephens Rd, Murrayville, GA 30564, USA`` (Glenn Hauser, OK, WOR)

** U S A. 28274+, May 19 at 2209, WI4L/B, beacon seems slightly above 274, but WGB list: ``28274.0 WI4L/B - Dalton GA USA EM74nq - #0 (19 Nov 2025) Note: ID + grid  43" off- Slow keying - Ex 28277.8`` - QRZ.com: ``WI4L USA flag USA, DAVID H "Dave on CW" STANLEY, 3411 S RIVERBEND RD, DALTON, GA 30721, USA``.

It takes a sporadic E opening to audiblize beacons in this range; for quite a while none audible even when faraway F2 skip from S America, Pacific, East Asia. These turn out to be from the same general area which would provide Es FM DX an hour+ later (Glenn Hauser, OK, WOR)

** U S A. 50063 CW, May 20 at 2158 UT, VVV VVV VVV DE K7EMX/B, good signal briefly, fading down. I don`t have a VHF antenna on the R75, and rarely hear anything on 6m - it does tune up to 60 MHz, but this time I axually catch a beacon by sporadic E into the HF loop. His QRZ.com page is crammed with comments, anti-Trump illustrations, etc., tsk2. If you search on the word beacon you get about 12 hits, most of which are about 10m, where I have heard him before, first on June 29, 2020y. Two hits by searching on 50.063mhz. You won`t get any if the mhz is not attached. I seriously recommend *never* attaching units to numbers. I don`t find anything recent, but most comments are not dated.

``K7EMX USA flag USA, PAUL R LARSON, 5057 LOOMIS LN, KEARNS, UT 84118, USA {sic:}

5/09/2020: The 6 meter (50.063mhz) CW beacon is TEMPORARILY off the air. We are doing some maintenance on the deck & installing an inflatable hot tub so we can go K7EMX/MM using a disposable Baofeng UV5R for very special sanctioned radio events. Had to disconnect the M2 loop antenna and feedline. It will be back very soon. I'm sure the local RF genius types will find this very disappointing. I have also been ponderizing a 20dB (above 1 watt) power output increase to rid the loop of the invasive, pervasive Eurasian Collared Doves, that seem to favor it as a perch for mate calling, sleeping & pooping. Disgusting bird is just like a Hominid.

5/31/2020 NEWS-FLASH: The 50.063mhz beacon is currently running at ~18.5dbW to rid the M2 loop from any further damage from the evil birds. This was the minimum output power level deemed (using only the finest empirical science) to be effective. It's interesting to note that the collared doves do a shuffling version of the Wah-Watusi on the loop, look at and peck at their feets, before exiting the perch. It's like they communicate, in simple terms "HEY, WHAT IS GOING ON HERE"?

No more sleeping, pooping and koo-koo coooo-ing.....atleast for now. We WILL return to 1 watt very soon. Sorry for all that nasty QRM, spurious junk, 120hz ripple, keying transients and CW chirp. Things WILL return to normal? very, very soon. Hey, you know the drill. Look over there! What was that?? Happy Birthday Donnie!`` (Glenn Hauser, OK, WOR)

** U S A. My first FMDX sporadic E opening of the season. All into Nissan Sentra stock caradio, parked facing west but should not matter much into vertical antenna on right front fender. No RDS, no recording, no internet during opening but researched later. I do not count stations, states or anything. Most of these are rather definite, anyway. I quote from WTFDA FM Database excellent reference. I add distances city-to-city, not site-to-site, from distancefromto.net. All times and dates strictly UT, starting Tue May 19:

94.1 at 2313, live baseball game, fading; 2314 ``here in Jaxonvil`` ... ``on Sports Radio 94.1``; Virginia Beach ad, greencleanexpress.com = carwash. There is no 94.1 in Jax FL. This one is close to VA Beach:
WVSP-FM 94.1 YORKTOWN VA SPORTS PRIORITY LEXUS SPORTS RADIO 19836 40.0 kW 162.0m 37-12-33 76-32-35 8DFF Current Show on Priority Auto Sports Radio 94.1 Sports 1900 km/1181 stmi

94.5 at 2318, forthepeople.com = lawyers; Virginia Cannabis Control Authority; UVAHealth.com, safe-driving-Memorial-Day phone 888-8888; Staples ad; Select Quote life insurance 1-800-329-1010; 2320 ``Richmond`s #1 hit music station``.
WRVQ 94.5 RICHMOND VA CONTEMPORARY HIT RADIO Q-94 11963 200.0! kW 109.0 m 37-24-15 77-18-55 HD 13BE Q94 Title & Artist on Q94 Top 40 1817 km/1129 stmi

96.7 at 2322, 963-5170, Rockridgespayneuter.com, Augusta Health;``96.7-three-W-Z``; Rockridge Farmers Co-Op, 540-463-7481 for HVAC care. White`s? Travel Center & Mercantile; 2325 3-W-Z weather, 70s, 80s and 90s hits, Lexington`s -- Rockbridge with a -b- and Lexington are neighboring towns to Buena Vista in western VA; who would guess that the three doubleyouze would not be consecutive?
WWZW 96.7 BUENA VISTA VA CLASSIC HITS CLASSIC 96.7 3WZ 19672 2.0 kW 346.0 m 37-43-38 79-18-23 9160 1648 km/1024 stmi

94.3 at 2329, 458 AC, 206-0172 to record prayer for Israel; 2331 on PRN, program promos in Central time, Bott Radio Network, so must have been BRN, and KCVW Kingman Kansas. 458 AC is Oregon! I have skipped some others turning out to be enhanced OK/KS signals

87.7 at 2340, JBA song, 2343 f/up praise music, English announcement. There are two Franken-FM possibilities, one near Atlanta as heard later and the other in VA: Nor clear why the Atlanta R&B would be in {sic} Spanish:

(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2347 monitoring: Confirmed Friday May 15 at 2030 on IRRS SW via AM Italia, 1322.996, S9+12 into nearby Noale SDR, as usual interrupting some other programming, sounds like an AI femalish voice.

Also confirmed Friday May 15 at 2030 on WRMI webcast only.

NOT confirmed Friday May 15 at 2200 on WRMI 9955, because it`s OFF the air; I had also noted it missing before 1600 today. Other frequencies are OK, including 17790, 15770, 9395. By 2226 at least, WOR confirmed on WRMI webcast only. Into Georgia remote, I leave 9955 tuned and squelched until it finally cuts on at *2257 during Spanish gospel huxter.

Confirmed Friday May 15 at 2234 the 2230 on SW Radio Gold, Germany, 3975.001-, S9/+10 into UTwente.

Not confirmed UT Saturday May 16 at 0300 on WTWW 5085: rather, last week`s WOR 2346 plays, with the usual double-start interrupted by another ID. But something else is wrong I have never encountered before: a continuous ``banging`` sound every few seconds mixed with my modulation. I emailed George about this when I first noticed it at 0230, so it`s not a problem peculiar to WOR only. 2346 played to completion along with the banging until 0329 ID, two minutes of deadair and off*. I can`t imagine anyone axually putting up with the banging to listen to last week`s show even if it were new to them. TG for redundancy, a few more opportunities elsewhere to hear 2347.

Confirmed Saturday May 16 at 0943 the 0930 on WRMI 7570, S9/+20 direct.

Also confirmed Saturday May 16 at 1453 the 1430 on SW Radio Gold, Germany, 6160, S8/S9 and noisy into recommended Barney`s Bedford UK SDR; not into UTwente. Next:

1530 UT Saturday WRMI 9955 to SSE [also web-, phonecast];
1600 UT Saturday WRN via WRMI 9395 to NNW;

2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2347 monitoring: confirmed Saturday May 16 at 1530 on WRMI 9955, S9+25 into Georgia SDR.

Also confirmed Saturday May 16 at 1600 on WRMI 9395, S9+15/22; and 7730, S7/S8 both into Georgia SDR.

Also confirmed Saturday May 16 at 1930 on WRN via WRMI 9395, S9+25 into Georgia SDR.

Also confirmed Saturday May 16 at 1930 on SW Radio Gold, Germany, 6160 and 3975 both S9 into Barney`s Bedford SDR,

Cannot hear the Sat May 16 at 1930v on WA0RCR, 1860 AM, MO, none of the nearest SDRs can hear it in noisy daytime - not even the one in St Louis.

Also confirmed Saturday May 16 at 2100 on WRMI 9395, S9+40 into Georgia SDR.

Also confirmed Saturday May 16 at 2230 on WRMI 17790, S9/+10 into Bonaire SDR.

Also confirmed Saturday May 16 at 2230 on WRMI 15770, S8/S9 into UTwente.

Also confirmed Saturday May 16 at 2348 the 2330 webcast only on IRRS/IPAR/NEXUS/IBA.

Also confirmed UT Sunday May 17 from 0352 on WA0RCR, 1860 AM, Wentzville MO, the 0315v. I was about to give up as the 3 or 4 closest SDRs in MO and IL were getting huge storm noise from across northern Missouri; also JBA direct, not sure I could even recognize my own voice. But the SDR in SW MO, N0BQV, the same one I got La Ley 1190 on, is getting enough when I return at 0352, just in time to hear my playback start!

You may suspect I be self-obsessed with all this tracking of my own broadcasts? Not really, I just feel responsible for keeping up with them so my schedules will be as accurate as possible. I cannot always depend on affiliates notifying me of any temporary or permanent changes. And of course as reminders to listeners of when they can hear me.

Also confirmed Sunday May 17 at 0637 the 0630 on WRN via WRMIs: 5850 S9+10/35, 7780 S2/S4, 7730 JBA carrier maybe me.

Mizzzed checking Sun May 17 at 0930 on IRRS via Romania, 9510. Anyone hear it?

Confirmed Sunday May 17 at 1038 the 1030 on WRN via WRMI 9395 S9/+25 and 7780 S7/S8; 7730 JBA maybe me?

Also confirmed Sunday May 17 at 1905 the 1900 on IRRS SW via AM Italia, 1322.995+, S8 and noisy into UTwente. Next:

2000 UT Sunday IRRS SW via AM Italia 1323;
2130 UT Sunday SW Radio, Germany 3975 6160;
2330 UT Sunday WRMI 9455 to NW;
0030 UT Monday WRMI 7780 to SW;
1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 5850 to NW;
1300 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
1400 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2000 UT Tuesday IRRS SW via AM Italia 1323;
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2347 monitoring: confirmed Sunday May 17 at 2000 on IRRS SW via AM Italia, 1322.995+, S9 but noisy into UTwente.

Also confirmed Sunday May 17 after 2000 on WRN Europe stream.

Also confirmed Sunday May 17 at 2155 the 2130 on SW Radio Gold, Germany, 6160.001+ S9+10 and 3975.001+ S9/+10 into UTwente.

Also confirmed Sunday May 17 at 2330 on WRMI 9455, S9+20/40 into Georgia SDR.

Also confirmed UT Monday May 18 at 0030 on WRMI 7780, S7/9+5 into S Texas SDR.

Also confirmed UT Monday May 18 at 0300 on Area 51 webcast only, as WBCQ 5130 already signing off after `Lost Discs Radio` ending on time, unlike JL on alternate weeks. Next:

1930 UT Monday SW Radio, Germany 3975 6160;
0330 UT Tuesday WRMI 5850 to NW;

2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2347 monitoring: Due to FM DX and other distraxions, missed checking these airings:
2230 UT Tuesday WRMI 9955 to SSE [also web-, phonecast];
2330 UT Tuesday SW Radio, Germany 3975;
0030 UT Wednesday WRMI 9395 to NNW;
Anyone hear them? Next:

1930 UT Wednesday SW Radio, Germany 3975, 6160;
2100 UT Wednesday WBCQ 7490v to WSW;
2330 UT Wednesday WRMI 9395 to NNW;
1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.
(Glenn Hauser, OK, WOR)

** U S A [and non]. WORLD OF RADIO 2347 monitoring: confirmed Wednesday May 20 at 2101 on WBCQ 7490 -78Hz 7489.922, S7/9+5 into Maryland remote, after no signal into two of the W3HFU SDRs.

Also confirmed Wednesday May 20 at 2330 on WRMI 9395, S9+35 into Georgia SDR. Next:

1630 UT Thursday SW Radio, Germany 3975 & 6160;
2330 UT Thursday WRMI 5950 to NNW.

Or via PayPal not necessarily in US funds, to: woradio at yahoo.com

(Glenn Hauser, OK, WOR)

** U S A. 5085, UT Sat May 16 at 0120, this WTWW is on the air, so expect WOR to appear at 0300, VG signal direct. Oh oh, at 0230 check there is a continuous ``banging`` sound every few seconds mixed with the modulation of Bob Biermann, I think. It seems to be prompted by the words but not matching them exactly and may pause a bit when the speech pauses. Yes, it`s still going during WOR, q.v. (Glenn Hauser, OK, WOR)

** U S A. 9955, May 16 at 1438, this WRMI back on air but JBA carrier direct in degraded propagation; at 1453 into Georgia SDR, achieves S9+25 during Wavescan (Glenn Hauser, OK, WOR)

** U S A. 7570, May 19 at 0657, this WRMI S8/S9 with music but JBM = just barely modulated (Glenn Hauser, OK, WOR)

** U S A. 3265.184 kHz, May 15 at 2355, this WBCQ on the air for first time in months? S9/+5 into NH SDR, must mean a new/live `AAAWWW` is imminent with Allan back up in Maine - it`s now // 7490- with FKB. By *2355, both 5130 -91 Hz = 5129.909 at S9/+5 and 6160 -75 Hz = 6159.925 at S9+12 are on with IS & ID, ``The Planet`` loop, 6160 overriding not SW Radio Gold, Germany, which quit at 2200, but CRI English at 2300-2400 only, see EAST TURKISTAN. And of course 7490 -78 Hz = 7489.922 at S9+22. At 2359 FKB gets his wrap-it-up cue tone, and Allan says do-dah, do-dah before starting `WTO` theme, then with talkovers: ``huh?``, ``(data) everywhere and not a brain to think``. Angela is lofi on phone from Fla. Then I start listening on 5130- via W1NT. Allan launches to talking about the threat of data centers costing huge amounts of electric power, e.g. in Utah, where there is not a lot of water to cool them. Circa 0025 about cylinder vs disc recordings. 0030 how he plays with radar. 0050, finally! Introduces program, datestamp as 15 of April - - rather May, 2026. A terrible spring in Maine this year: cold and constant rain, but now the black flies are coming out. Quadri-casting on 3265, 5130, 6160, 7490 - audio on some of them is delayed to even out power consumption. Invites email. WBCQ - the last analog hope of the world, and of free speech voice. 0059 Hal Turner is next, prayer. Once W1NT SDR timed out, I switched to Area 51 stream, which goes to music, but 7490 to Hal Turner by 0101 (Glenn Hauser, OK, WOR)

** U S A. 13845, May 14 at 1830, this WWCR is JBA S4 = noise level; but 12160 is blasting S9/+25. Hard to believe a sharp MUF boundary between these two, so is 13845 underpowered? (Glenn Hauser, OK, WOR)

** U S A. 7505, May 15 at 0638, WRNO on late as occasionally, gospel huxter in English, S9+5/8 (Glenn Hauser, OK, WOR)

** U S A. 9275, May 19 at 0130, no signal from WMLK; did not hear 17525 sometime in the afternoon, but I think 15150 was on sometime in the morning, poorly propagating. Neither of the higher frequencies heard daytime May 19 (Glenn Hauser, OK, WOR)

** U S A. 12050, May 19 at 1939, no signal direct from WEWN Spanish. Wonder if will be completely off in time for NASB meeting next week? Propagation degraded, but WTWW, WWCR, WRMI, even WINB detectable (Glenn Hauser, OK, WOR)

** U S A. 590 kHz, May 15 at 0635 UT, ``95.3 FM and 590 AM, WVLK`` ID, back to Red Eye Radio; Lexington KY in the absence of Omaha. Translator listed on 97.3, so maybe that`s what they said. U4 5/1 kW with a notch to WNW, far enough off our westerly direxion (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 590, May 20 at 0635 UT, S9+15/20 open carrier vs

othersigs. Suspect Omaha transmitter back on air. New owners have applied to resume original legacy call WOW, as ARC mv-eko reports: ``As Walnut Media seeks to acquire SummitMedia's Silent 590 KXSP Omaha, the company has applied for a waiver to place the heritage WOW call letters back on the frequency`` (Glenn Hauser, OK, WOR)

** U S A. 790, May 16 at 0643 UT, ``The greatest hits of all time on 106.5 KBVA``, so it`s the reactivated KURM Rogers AR as detailed in my May 7-9 reports. But no reply to my inquiry about 1190 ``La Ley``, possibly because its operation is ironically not lawful, daytimer at night and no legal IDs ever heard (Glenn Hauser, OK, WOR)

** U S A. 1190, May 14 at 0600 UT, KDMR ID and into `Christ is the Answer`` #734. This is EWTN station in Kansas City MO. I am trying to ID ``La Ley`` in Spanish on 1190, see unID! but KDMR occasionally overcomes it, such as at ToH legal ID time! Also at 0659 with 95.3 FM and Overland Park, Catholic Radio Network. In NRC AM Log, U2 5000/500, nothing about 95.3. Radio-Locator does link it to K237GQ on 95.3, Kansas City KS. 1190 night pattern has a notch to SSW, but maybe we are slightly west of that (Glenn Hauser, OK, WOR)

** U S A. UNIDENTIFIED. 1190, May 14 from 0559 to 0706 UT, I`m monitoring almost constantly but occasional dozes, ``Radio La Ley`` it`s usually audible with occasional peaks, and occasional losses to KDMR, see USA. Song after song in peppy mariachi? style, and liners between every song or two in rotation: I can`t copy the entire text, but nothing ever heard to locate this. At least ``Radio La Ley`` at 0614, 0628, 0706. Another one at 0618 & 0624 mentions ``Estados Unidos -- 2026``, so probably not a Mexican. At 0650, ``escúchenos en todo el mundo, Radio La Ley``. And at 0647, 0657, ``RadioLaLey.com`` -- aha, that website should ID it when I look it up later -- but NO!!! radiolaley.com forwards to hugedomains.com for sale at huge prices! There is a Radio Ley in Culiacán, Sinaloa, but nothing about the frequency at radioley.com - without the ``la`` as always part of the non-ID slogan. During the hour at 0628 I tried to DF it on the DX-398, but not enough signal. Once again I look thru all the Ley slogans in WTFDA FMDB, but no correlation ever with a relay of 1190. Since all my searching goes nowhere, I suspect this be a recent format change from something in English, and not too far away. There are a couple in Arkansas. Also some minor SS with different slogans in AZ, FL, TN, major in NYC.

IDENTIFIED. At 1845 UT May 14, I check a DFW remote on 1190 to be sure the station there is still in English: Yes. Then to Arkansas, the N0BQV remote in SW MO. BINGO!! Aside stronger closer 1200 signal, there is R. La Ley on 1190, noisy but obviously the station in NW AR, listed as KREB, Gentry AR, address in Fayetteville. At 1849 slogan ``La Tremenda...Radio La Ley`` - I never caught the Tremenda before, but presumably secondary slogan to La Ley. Monitoring across 1900 UT hourtop, *still* same liners and NO callsign heard, by super-hype voice actor. But never any commercials. By 2000 still long before sunset, starting to hear some lite English CCI, the other in AR? Guess what, it`s licensed as 3000 watts daytime only, but CH 2500 per NRC. FCC LMS still has it as Facility 30935, KREB, Rox Radio Group as also in radio-locator.com But Rox website forwards to 479Media.com, and that website shows only 4 stations, all FM and all in English. Email address of record at FCC is the same one as for KURM 790, another mystery recently identified, so I write again to that same person, John Lykins: ```Thanks for the KURM info. Now another question: On 1190 I am hearing a ``Radio La Ley`` in Spanish. This must be KREB, or ex-KREB. Is this one of yours or sold off; different callsign now? Thanks, Glenn Hauser, Enid OK``` (Glenn Hauser, OK, WORLD OF RADIO 2347)

** U S A. 1190, re `La Ley` I have been hearing at night from KREB, if

that`s still its call in Gentry AR, this reference https://amdxer.com/ambc/ claims KREB is R. Éxitos (Glenn Hauser, OK, WOR)

** U S A. 1460, May 17 at 0645 UT, listing a bunch of team names without specifying which sport goes with each, and AM 1460, FM 106.3, KXNO, then Fox Sports Radio. 106.3 is not a mere translator but KXNO-FM licensed to Ankeny IA with 25 kW ERP. You may never have heard of Ankeny but it`s just N of DM with a 2010y population of 46K. Not mentioned in NRC AM Log for 1460 listing, U2 5/5 kW, Des Moines night pattern is NE/SW, good for us (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 760.03 approx., May 17 at 0641 UT, LAH against WJR from JBA carrier. XEDGO Durango2 is the uppest in mwoffsets, 760,125 as of 2023y; also logged last year (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 1340 kHz, May 15 at 0655 UT something in Spanish tops the graveyard briefly; among about a dozen SS in NRC AM Log, three are closest, KGGS Garden City KS, KDTD Kansas City KS, and KJMU Sand Springs OK. On daytime groundwave I can`t even get KJMU, only KGHM Midwest City OK (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 17820, May 20 at 1412, unID language, S9 vs HNL of S5, and the SSOB with the only othersigs JBA carriers on 17700, 17735. Nothing anywhen in EiBi on 17820. Aoki shows nothing but CNR13 from Dongfang, Hainan at 2155-1805 in Tibetan, Chinese, Uyghur depending on the time, i.e. Uyghur at 10-15. HFCC shows always 100 kW at 16 degrees which accounts for sig thisaway but hardly towards Tibetan and Uyghur areas of imperialist China. Someone else cited Lingshi as the site for 17820. And HFCC adds on 17820, Riyadh at 12-15 in Urdu, but AFAIK Sa`udi Arabia has been completely off SW for some time (Glenn Hauser, OK, WOR)

UNIDENTIFIED. 25935 LSB, May 15 at 2203, Brazilian accented CBers or freebanders, beeps at end of transmissions, JBA while nothing on 10, 12 or 15m hambands, and very little on 27 MHz CB (Glenn Hauser, OK, WOR)

TIPS FOR RATIONAL LIVING

FIRING LINE May 15, 2026
Jim Mattis / Ryan Holiday PART TWO – 250TH ANNIVERSARY

Former Defense Secretary Jim Mattis and bestselling author Ryan Holiday examine the ancient philosophy that inspired America’s founders – and why its lessons on courage, duty, and leadership matter more than ever 250 years later.
